Vulnerability Assessment

1) The grafana is vulnerable to arbitrary file read

🔗 CVE-2021-43798 – Grafana Exploit

About

This is a proof-of-concept exploit for Grafana's Unauthorized Arbitrary File Read Vulnerability (CVE-2021-43798).

This vulnerability affects Grafana 8.0.0-beta1 to 8.3.0.

According to Shodan data, there are just over 2,000 Grafana servers exposed online, with the majority residing in the US and Europe, as can be seen in the figure below.
